

SET-UP GUIDE

Parental Control (basic)

To create a parental control profile:

1. Select the “+” symbol to create a new profile
2. Enter the name for the profile in the box and select the devices you would like to add to this profile
3. Select “Submit” (at the bottom of the screen)

Once the profile is created you can do the following:

- Use the pencil icon to edit the profile and add a picture if desired
- Select the Pause “||” icon to disable all devices connected to this profile
- To bring devices back online select the Play icon
- Select Add Device to add more devices to this profile
- Select Remove Device to remove devices from this profile

Note: If a device has the **GVTC WiFi App**, do not add it to a profile, as you may inadvertently cut off your access to these controls. If this happens, switch to mobile data, to restart the profile with your app device.
