

Fiber-to-the-Home

THE FASTEST SPEEDS POSSIBLE

THE TECHNOLOGY OF THE FUTURE

THE SIMPLICITY OF ONE BILL

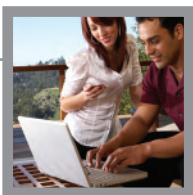

THE DEDICATION OF GVTC

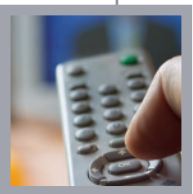

Turn your house into a Home of the Future™ with Fiber-to-the-Home from GVTC.

Tired of keeping up with technology advancements? Then you need Fiber-to-the-Home (FTTH) from GVTC. Only this extraordinary fiber optic technology can prepare your home to instantly adjust to the latest upgrades for years — if not decades — to come. So now you can stop spending your time searching for the best technology — and start enjoying it. It's just plain smart.

Broadband: You'll never again wonder if your Internet access could be faster. With FTTH, you not only get the fastest speeds possible, but you're instantly ready for future growth.

Digital Cable TV: Let your TV live up to its true potential. FTTH brings you hundreds of digital cable TV channels with crystal clear picture quality and options such as HDTV, DVR, and Video-On-Demand.

Telephone: FTTH technology also allows you to enjoy the clarity and reliability of our local and long distance phone service — with a plan perfect for your calling needs.

24 Hour Security Monitoring: Backed by the reliability and performance of FTTH, you can rest assured that you're protecting all that is important to you with our 24-hour security monitoring.
