GVTC Executive Re-elected to FTTH Council Board of Directors

SMITHSON VALLEY, (December 20, 2013) — GVTC is once again providing executive leadership with the premier organization representing the fiber-to-the-home industry. George O’Neal, V.P. network services, was elected to a three-year term on the FTTH Council of North America’s board of directors. O’Neal has served four years on the board and this reelection marks his third term. He will continue to assist as the board’s treasurer.

The FTTH is a non-profit association consisting of companies and organizations that deliver video, Internet and/or voice services over high-bandwidth, next-generation, direct fiber optic connections - as well as companies that manufacture FTTH products and others involved in planning and building FTTH networks. The Council works to create a cohesive group to share knowledge and build industry consensus on key issues surrounding fiber to the home.

“I’m honored for the opportunity to continue my service with the FTTH Council and look forward representing the service provider point of view as FTTH technology continues to expand through our service area and the United States,” O’Neal said.

About GVTC:

GVTC is a full-service communications provider offering high-speed Internet, digital cable TV, phone and interactive home security monitoring to residential and business customers.
