**GVTC brings symmetrical broadband connections to San Antonio market**

SMITHSON VALLEY, January 5, 2016. GVTC Communications — the first to launch residential gigabit internet speeds in the San Antonio market — is now offering local consumers another first.

SpeedSync™ is a symmetrical broadband product that delivers equal download and upload speeds to a home or business. SpeedSync™, launched on January 4, 2016, is currently available in 20/20 Mbps, 50/50 Mbps and 100/100 Mbps connections to GVTC customers with a fiber network connection. Currently, more than 40,000 rooftops, in GVTC's 2,000 square mile service area have access to a fiber connection.

SpeedSync™ is designed to meet the needs of a growing numbers of consumers whose lifestyle depends on a fast upload connection.

“GVTC's super-fast, two-way speed tiers support those who work from home, enjoy high-performance gaming, heavy online video and photo uploads, use cloud storage services and require support for multiple devices,” Josh Pettiette, GVTC V.P. product development, said. “When upload speeds match download speeds, users will enjoy a complete and vastly improved online experience.”

GVTC test marketed SpeedSync™ in the Mountain Lodge subdivision, in north San Antonio, with an 80/80 Mbps connection. Based on positive response, the company moved forward with expanding the product into three different tiers.

Pricing varies on the connection speed and other GVTC products bundled with SpeedSync™. The company is poised to offer faster SpeedSync™ connections should consumer demand warrant it.

About GVTC:

GVTC is a full-service communications provider offering high-speed Internet, digital cable TV, phone and interactive home security monitoring to residential and business customers to customers in far north San Antonio, the Texas Hill Country and South Central Texas. GVTC was first to the San Antonio market with fiber-to-the-home services, 1 Gbps internet speeds and with symmetrical broadband speeds. GVTC also offers an extensive selection of business communication services available throughout its service area, New Braunfels and San Antonio.

In June 2014, the GVTC GigaRegion® was formed with the cities of Boerne, Bulverde and Gonzales. Through this unique public-private partnership, GVTC and the GigaRegion® cities jointly market the benefits of a fiber network, along with economic incentives, to compete for jobs and improve quality of life.

GVTC has been named a Top 100 Fiber to the Home Company by Broadband Communities Magazine, for eight consecutive years, received the 2014 Broadband Vision Award for Service Provider by the Broadband Multimedia Marketing Association and selected a 2015 Top Operator by CableFAX The Magazine. GVTC has also received numerous Top Workplaces and Best Places to Work awards. The company's philanthropic arm, The GVTC Foundation, is approaching two million dollars in donations to charitable organizations, since its establishment in 2006.
