

## **GVTC Launches MultiGig Fiber Internet with 2-Gig and 5-Gig Speeds**

GVTC Communications, a leader in fiber internet technology, is excited to announce the launch of its new MultiGig Fiber internet service, now offering 2-gig and 5-gig speeds. This expansion reinforces GVTC's commitment to providing cutting-edge technology that meets the growing demand for high-speed and reliable connectivity.

### **Empowering Homes with MultiGig Connectivity**

As smart home technology continues to evolve, households require faster and more efficient internet to support an increasing number of connected devices. The average home now has 25+ devices running on WiFi, and experts predict that by 2030, a typical family will need speeds exceeding 2 Gbps to power daily digital activities. GVTC's MultiGig internet delivers the speed, reliability, and capacity needed to meet these demands, ensuring seamless streaming, lag-free gaming, and ultra-fast downloads for homes of all sizes.

Josh Pettiette, President and CEO of GVTC Communications, said, "At GVTC, we strive to exceed the expectations of our customers. The launch of MultiGig Fiber with 2-Gig and 5-Gig speeds ensures our communities have access to the most advanced technology, empowering homes and businesses to thrive in today's increasingly connected world."

### **Key Benefits of GVTC MultiGig Fiber Internet:**

- Blazing-fast speeds – Perfect for high-demand activities like 4K+ streaming, competitive gaming, and remote work.
- Symmetrical upload and download speeds – Ideal for video conferencing, content creation, and cloud storage.
- Price consistency – Enjoy a price-locked rate on internet!
- No contracts – Enjoy the freedom to stay connected on your terms.
